

License Agreement for Software Products of X-Ways Software Technology AG

Your use, distribution, or installation of a software product developed and published by X-Ways Software Technology AG (“X-Ways”) indicates your acceptance of this license agreement. If you do not agree to some of the terms, then do not purchase, install or use the product. The software products are subject to export and import control laws and regulations of the USA and others.

Licenses are limited and non-exclusive, worldwide, and either perpetual or non-perpetual in nature. Depending on the copy protection method, a license may be connected to a certain hardware device (e.g. dongle), which is required for the execution of the software. X-Ways does not replace lost, misplaced or stolen devices unless specified otherwise.

One license authorizes one person to run the software on a single machine with one user account at a time. For reasons of convenience, software products with dongles, BYOD or BYOD+ as the copy protection method may be installed by the licensee on additional computers (in excess of the number of licenses that it has). For other software products the number of installations (copies of the software that are unlocked and ready for execution) must not exceed the number of licenses. The number backup copies that a licensee can make of the software is not limited either way.

Resellers may purchase licenses for the software products for direct/immediate resale to an actual licensee, not requiring special authorization, if the licensee is specified at the time when the order is placed. Volume discount does not apply to resale to different licensees. A licensee may be a natural person or juridical person. A licensee may not further transfer their licenses to a third party except if in very specific cases express consent is given by X-Ways. A licensee may allow members of their organization to use the software product in their name. For software products with dongles, BYOD or BYOD+ as the copy protection method, a licensee may further allow their contractors to use the software in their name for a limited time and for a defined shared purpose, whereby the licensee becomes responsible for the contractor’s compliance with the license agreement.

You must not rent, lease, share, time-share, modify, translate, reverse-engineer, decompile, disassemble or decrypt the software or create derivative works based on it without prior explicit permission. No component of the software must be accessed by other applications or processes, except through publicly documented APIs. Markings or any notice of proprietary rights must not be removed or modified. Publication of the results of benchmark tests run on the software products X-Ways Forensics and X-Ways Investigator are prohibited by Oracle.

The licensee must assume the entire technical risk of using the program, knowing in particular that the software is not designed or intended for use in hazardous environments requiring fail-safe performance, where its failure to perform, misuse or inability to use adequately can reasonably be expected to lead to death, personal injury, or severe physical or environmental damage. In particular use of the X-Ways Forensics and X-Ways Investigator software products is prohibited for the planning, construction, maintenance, or operation of a nuclear facility. In no event shall X-Ways, or their officers, directors, employees, affiliates, contractors, or subsidiaries be liable for any direct, indirect, incidental, consequential, or punitive damages whatsoever arising out of the use or inability to use the software, to the maximum extent permitted by applicable law. Any liability will be limited exclusively to refund of the purchase price. It is the responsibility of the licensee to back up their data at reasonable intervals to minimize the damage caused by data losses of any kind.

All rights of any kind in the software product which are not expressly granted in this license agreement, among them the intellectual property rights, are entirely and exclusively reserved to and by X-Ways, its affiliates or licensors. All sales are final and non-refundable. Should any part of this agreement be or become invalid, such invalidity shall not affect the validity of the remaining provisions of the agreement. The license agreement ends here for private sector licensees.

Last updated 2024-04-01.

This page is applicable to public sector licensees only (worldwide).

If a public sector licensee decides to finance their acquisition of the software products, they must follow Oracle's policies regarding financing. Public sector licensees are hereby informed that any third party firms retained by them to provide computer consulting services are independent of Oracle and are not Oracle's agents, and Oracle is not liable for nor bound by any acts of any such third party firm. Some programs may include source code that Oracle may provide as part of its standard shipment of such programs, which shall be governed by the terms of the license agreement. To the extent not prohibited by applicable law, Oracle is not liable for (a) any damages, whether direct, indirect, incidental, special, punitive, or consequential, and (b) any loss of profits, revenue, data, or data use arising from the use of the software. At the termination of the agreement, use of the software must be discontinued, and all copies of the programs and documentation must be destroyed or returned.

A public sector licensee's use of the software may be audited. Such a licensee is required to provide reasonable assistance and access to information in the course of such audit, and permit X-Ways to report the audit results to Oracle or to assign the right to audit the use of the software to Oracle. Neither X-Ways nor Oracle shall be responsible for any of the public sector licensee's costs incurred in cooperating with the audit.

A public sector licensee agrees that they have not relied on the future availability of any hardware, programs, or updates in entering into the license agreement; however, (a) if the public sector licensee orders technical support from Oracle for the programs, the preceding sentence does not relieve Oracle of its obligation to provide updates under such order, if-and-when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to the public sector licensee for any program licensed under this license agreement, per its terms.

Oracle is designated as a third party beneficiary of the licensee agreement.

The license agreement ends here for public sector licensees except in North America.

The following pages are applicable only to public sector licensees in North America other than the U.S. Federal Government.

THESE ORACLE SOFTWARE PROGRAM AND/OR SERVICES PUBLIC SECTOR SUPPLEMENTAL TERMS AND CONDITIONS (“SOFTWARE STCs”) SHALL APPLY TO THE ORACLE SOFTWARE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE “CONTRACTOR”). THESE SOFTWARE STCs SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE SOFTWARE STCs ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACTOR.

A. Definitions

“You” and “Your” refers to the ordering activity that has ordered programs, and/or services from an authorized distributor (“Contractor”) under the contract.

The term “ancillary programs” refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term “contract” refers to your contract or ordering document with the Contractor.

The term “program documentation” refers to the program user manual and program installation manuals.

The term “programs” refers to the software products owned or distributed by Oracle which you have ordered, program documentation, and any program updates acquired through technical support.

The term “services” refers to annual technical support services which you have ordered.

B. Rights Granted

Upon Contractor’s acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Software STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

C. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media. Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation. Such third party technology is licensed to you under the terms of the third party technology license agreement specified in the program documentation and not under the terms of the contract or these Software STCs.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program markings or any notice of Oracle’s or its licensors’ proprietary rights;
- make the programs or materials resulting from the services available in any manner to any third party for use in the third party’s business operations (unless such access is expressly permitted for the specific program license or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software; or
- disclose results of any program benchmark tests.

D. Warranties, Disclaimers and Exclusive Remedies

For the sake of clarity, this is the Oracle manufacturer’s warranty; nevertheless, it shall be accessed by you through the Contractor. Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.** Oracle also warrants that services will be provided in a professional manner consistent with industry

standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALY REASONABLE MANNER YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES PAID TO ORACLE FOR THE PROGRAM LICENSE DISTRIBUTED TO YOU; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES PROVIDED BY ORACLE; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THOSE SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT SERVICES PROVIDED BY ORACLE TO YOU. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

E. Technical Support

Technical support consists of annual technical support services you may have ordered or will order for the programs, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Software STCs. Bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period. Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

F. Intellectual Property Indemnification

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending

upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider", which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- o notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- o gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- o gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and the Software STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

This section provides Your and Oracle's exclusive remedy for any infringement claims or damages.

G. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE SOFTWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

H. Other

1. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.
2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Software STCs.

3. Accessibility. The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at www.oracle.com/us/corporate/accessibility for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at accessible_ww@oracle.com. In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS including access to lists of phone numbers for using the service is available at <https://www.fcc.gov/trs>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. You agree that the representations provided and referenced in this paragraph satisfy Your requirements relating to Section 508 and Accessibility, and that no other Section 508- or accessibility-related requirements, terms, conditions, statements or any other such representations, including any which may be contained in any non-Oracle order or ordering documentation, shall apply to the Oracle products and/or services provided under these Software STCs.

4. Internet Protocol version 6 (IPv6). Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. You agree that the representations provided and referenced in this paragraph satisfy Your requirements relating to IPv6, and that no other IPv6-related requirements, terms, conditions, statements or any other such representations, including any which may be contained in any non-Oracle order or ordering documentation, shall apply to the Oracle products and/or services provided under these Software STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

6. Oracle, as the owner of the intellectual property of the program licensed and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.

7. The Uniform Computer Information Transactions Act does not apply to these Software STCs nor any order placed pursuant to them.

8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

9. You may order trial programs, or Oracle may include additional programs with your order with Contractor

which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

10. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information and permit Contractor to report the audit results to Oracle. Any such audit shall not unreasonably interfere with your normal business operations. Contractor shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.

11. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

12. Source code maybe delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of these Software STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.

13. Programs and service deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

14. For software (i) that is part of Programs, Operating Systems, Integrated Software or Integrated Software Options (or all four) and (ii) that You receive from Oracle in binary form and (iii) that is licensed under an open source license that gives You the right to receive the source code for that binary, You may obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You may also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

15. Oracle's Applications Licensing Table in effect as of the effective date of your order is incorporated herein. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>. Oracle reserves the right to periodically change the information presented on the website provided above. All information on this website is provided "as-is" without warranty of any kind, either express or implied.

16. Oracle's License Definitions and Rules are incorporated herein. You may access the current version of the License Definitions and Rules at <http://oracle.com/contracts>.

17. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.

The following pages are applicable to U.S. Federal Government public sector licensees only.

E. Technical Support

Technical support consists of annual technical support services you may have ordered or will order for the programs, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Software STCs. Bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period. Technical support services charges for SULS (or any successor technical support offering to SULS) are classified as Software Maintenance as a Service and must be paid in arrears (31 U.S.C. 3324). **PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.**

Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been

paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

F. Intellectual Property Indemnification

If someone makes a claim against you, including the U.S. Government, and its officers, employees and agents, or Oracle ("Recipient", which may refer to you or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider", which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- o Notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- o Gives the Provider control of the defense, with input from Recipient, and any settlement negotiations, provided that for the U.S. Government the control of the defense and settlement is subject to 28 U.S.C. 516; and
- o Gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. Oracle's right to end the license or request termination of the order in accordance with this paragraph shall not apply if the U.S. Government authorizes or consents to use of the Material, and in such cases, Oracle shall have no obligation to indemnify or other liability whatsoever, to the Government or to third parties for infringement, and the exclusive cause of action and remedy for infringement shall be in accordance with 28 U.S.C. 1498, as set forth in 48 C.F.R. 27.201-1(a). The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and the Software STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

With respect to the U.S. Government, the foregoing indemnification shall not apply as to the United States indemnifying Oracle or any other party; however, Oracle reserves the right to seek indemnification from the U.S. Government in accordance with the preceding paragraphs should Federal statute permit such indemnification.

This section provides the parties' exclusive remedy for any infringement claims or damages.

G. NEITHER YOU NOR ORACLE OR ITS AFFILIATES SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF

PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S AND ITS AFFILIATES' MAXIMUM AGGREGATE LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE SOFTWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES ACTUALLY PAID TO ORACLE UNDER SUCH ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES ACTUALLY PAID TO ORACLE UNDER SUCH ORDER FOR THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY LESS ANY REFUNDS OR CREDITS RECEIVED BY CONTRACTOR FROM ORACLE UNDER SUCH ORDER.

H. NONDISCLOSURE

By virtue of Your order and these Software STCs, Oracle, the Contractor and You may disclose to each other information that is confidential ("Confidential Information"). Confidential information shall be limited to the terms and pricing under these Software STCs and Your order, and all information clearly identified as confidential at the time of disclosure.

A party's Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

Subject to the Freedom of Information Act ("FOIA") (5 U.S.C. §552), Oracle, the Contractor and You each agree not to disclose each other's Confidential Information to any third party other than as set forth in the following sentence for a period of five years from the date of the disclosing party's disclosure of the Confidential Information to the receiving party. Each party may disclose Confidential Information only to those employees, agents or subcontractors who are required to protect it against unauthorized disclosure in a manner no less protective than required under these STCs, and each party may disclose the other party's Confidential Information in any legal proceeding or to a governmental entity as required by law. Oracle will protect the confidentiality of Your Content resident in the Services in accordance with the Oracle security practices defined as part of the Service Specifications applicable to Your order.

The parties acknowledge and agree that You and these Software STCs are subject to FOIA. Should You receive a request under such law for Oracle's Confidential Information, You agree to give Oracle adequate prior notice of the request and before releasing Oracle's Confidential Information to a third party, in order to allow Oracle sufficient time to seek injunctive relief or other relief against such disclosure.

I. ENTIRE AGREEMENT

You agree that these Software STCs and the information which is incorporated into these Software STCs by written reference (including reference to information contained in a URL or referenced policy), together with the applicable order, are the complete agreement for the products and services ordered by You and supersede all prior or contemporaneous agreements or representations, written or oral, regarding such products and services. These Software STCs shall not be modified, altered, or waived except by mutual written agreement signed by authorized representatives of You and the Contractor. Any notice required under these STCs shall be provided to the other party in writing.

J. Other

1. Oracle programs, including the operating system, integrated software, any programs installed on the hardware and/or documentation, delivered in accordance with the terms and conditions of the contract are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation ("FAR"). As such, use, duplication, disclosure, modification, and adaptation of the programs, including the operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to these Software STCs, and then, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software (DEC 2007) wherein for the purposes of the contract "Government" shall mean the ordering activity.

2. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

3. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Software STCs.

4. Accessibility. The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at www.oracle.com/us/corporate/accessibility for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at accessible_ww@oracle.com. In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS including access to lists of phone numbers for using the service is available at <https://www.fcc.gov/trs>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. You agree that the representations provided and referenced in this paragraph satisfy Your requirements relating to Section 508 and Accessibility, and that no other Section 508- or Accessibility-related requirements, terms, conditions, statements or any other such representations, including any which may be contained in any non-Oracle order or ordering documentation, shall apply to the Oracle products and/or services provided under these Software STCs.

5. Internet Protocol version 6 (IPv6). Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. You agree that the representations provided and referenced in this paragraph satisfy Your requirements relating to IPv6, and that no other IPv6-related requirements, terms, conditions, statements or any other such representations, including any which may be contained in any non-Oracle order or ordering documentation, shall apply to the Oracle products and/or services provided under these Software STCs.

6. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

7. Oracle, as the owner of the intellectual property of the program licensed and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.

8. The Uniform Computer Information Transactions Act does not apply to these Software STCs nor any

order placed pursuant to them.

9. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

10. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

11. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs to ensure Your use of the Programs is in compliance with the terms of the applicable order and these STCs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information. Such cooperation and assistance shall also include, but shall not be limited to, the running of Oracle data measurement tools on Your servers and providing, or permitting the Contractor to provide, the resulting data to Oracle. Any such audit shall not unreasonably interfere with your normal business operations, and shall comply with Your reasonable security and safety rules, policies, and procedures, including any facility or system access rules applicable to outside parties ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. If the audit identifies non-compliance, You shall be responsible for remedying such non-compliance, which may include, without limitation, paying any underpaid fees related to use of the programs and Oracle or the Contractor (as the case may be) or discontinuing Your noncompliant use. Should the remedy require You to pay fees, You will submit a contract modification to document the amount of such fees. Contractor may assign its right to audit your use of the programs to Oracle. In all cases, Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit. The performance of the audit and non-public data obtained during the audit (including findings or reports that result from the audit) shall be subject to Section H (Nondisclosure) of these Software STCs.

12. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

13. Except for actions for breach of Oracle's proprietary rights, any disputes arising out of or relating to these Software STCs shall be handled in accordance with the Contract Disputes Act.

14. Source code maybe delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of these Software STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.

15. Programs and service deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

16. For software (i) that is part of Programs, Operating Systems, Integrated Software or Integrated Software Options (or all four) and (ii) that You receive from Oracle in binary form and (iii) that is licensed under an open source license that gives You the right to receive the source code for that binary, You may obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You may also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

17. Except as stated otherwise in your order, the version of Oracle's Applications Licensing Table in effect as of the effective date of your order shall apply to the licenses for the programs you order. The applicable Applications Licensing Table is available at <http://oracle.com/us/corporate/contracts>. Oracle reserves the right to periodically change the information presented on the website provided above. All information on this website is provided "as-is" without warranty of any kind, either express or implied.

18. Except as stated otherwise in your order, the version of Oracle's License Definitions and Rules in effect on the date of your order shall apply to the licenses for the programs you order. The applicable License Definitions and Rules are available at <https://www.oracle.com/corporate/contracts>. Oracle reserves the right

to periodically change the information presented on the website provided above. All information on this website is provided "as-is" without warranty of any kind, either express or implied.

19. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; (b) allowing for the automatic renewal of services and/or fees; and/or (c) requiring the governing law to be anything other than Federal law, then, such terms shall not apply. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains an indemnification provision, such provision shall not apply as to the United States indemnifying Oracle or any other party; however, Oracle reserves the right to seek indemnification from the U.S. Government in accordance with the terms of section F above should Federal statute permit such indemnification.
